

About Maryhaven

Maryhaven is a nonprofit, Long Island based agency committed to helping persons with special needs including intellectual disabilities, mental health issues, physical disabilities, and/or substance abuse/dependence issues realize their full potential, without regard to age, race, and/or religious beliefs. The agency's purpose is to establish, maintain and operate progressive programs and services which are residential, educational, vocational and rehabilitative in nature. The ideal goal is the attainment of normalization, in all aspects of life, for each individual we support.

Mission Statement Catholic Health Services

Catholic Health Services of Long Island, as a ministry of the Catholic Church, continues Christ's healing mission, promotes excellence in care, and commits itself to those in need.

CHSLI affirms the sanctity of life, advocates for the poor and serves the common good.

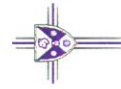

It conducts its healthcare practice, business, education, and innovation with justice, integrity, and respect for the dignity of each person

As a member of Catholic Health Services, the mission of Maryhaven Center of Hope is to improve, enrich, and respect the lives of people with special needs. We promote each person's highest potential by encouraging all aspects of growth. We are committed to delivering quality services throughout the individual's life journey. Together, we will make the difference.

Care Management

Maryhaven's philosophy is based on a person-centered approach to assist individuals in designing plans for services and to obtain satisfaction based on the individual's vision of a desirable future. Every planning effort and decision is made from the perspective of the person for whom the plan is being developed. This approach seeks to build on the individual's abilities and skills. The participant is the primary decision-maker. Therefore, Maryhaven offers a variety of services and programs to meet the participants' choices and needs

The Maryhaven team, utilizing the person-centered approach, guides, collaborates, and consults with advocates to create a plan that can contribute to the valued outcome of the individual's vision.

Services Offered

- Intake
- Assessment and Reassessment
- Service Planning and Coordination
- Implementation of Individual Service Plans
- Advocacy
- Link to Service Providers
- Monitoring and Follow-up
- Annual Review of Rights and Responsibilities
- Other Services as Needed or Desired.

Our Mission

The mission of Care Management is to link and assist individuals with intellectual disabilities to the services and supports needed to enhance and maintain themselves at a level of functioning where they have personal satisfaction and live in the environment of their choice. The following values are inherent in this mission:

- All individuals with intellectual disabilities have the right to full participation in the community in which they live.
- All individuals with intellectual disabilities have a right to timely and appropriate health and mental health rehabilitation and social support services to maintain their well-being in the community.

It is the intention of this program to offer participants increased access to individualized opportunities, increased access to community integration as desired, increased independence in all aspects of daily living including decision making and the ability to achieve productivity by individual design. Service Coordinators (MSCs) will assist individuals in obtaining satisfaction with service providers, and community organizations. Individuals will experience more normalized life roles, thereby enhancing the overall quality of their life.

Eligibility

Care Management / Medicaid Service Coordination serves individuals who have a documented diagnosis of intellectual developmental disability (IDD) and must have the required Medicaid insurance. Proof of this disability must be provided in the form of a current psychological evaluation, current psychosocial evaluation along with a current physical.
